

Priya Bhadoriya

Civil Engineering | AutoCAD • Revit • BIM • BOQ & Estimation

Supporting engineers with drawings, estimation, and documentation to help projects execute faster.

Professional Summary

Third-year Civil Engineering student focused on practical site and design execution. Skilled in AutoCAD drafting, Revit modeling, BIM basics, and quantity takeoff. Strong in Excel estimation, documentation, and coordination. Ready to support engineering teams from day one.

Technical Skills

AutoCAD

Quantity Takeoff

Site Documentation

Revit

BOQ Preparation

Project Coordination

BIM Basics

Excel (Estimation & Reports)

Projects

Residential Building Drafting

Created AutoCAD floor plans, sections, and elevations. Prepared BOQ and quantity takeoff using Excel.

Revit BIM Model

Developed 3D building model with schedules and drawing extraction. Applied basic BIM workflow and coordination.

NICMAR Academic Project

Handled planning, estimation, documentation, and team coordination for project execution tasks.

Professional Experience

Client Operations Associate | Digitide (formerly Conneqt)

- Managed client communication and service requests.
- Maintained Excel trackers and reports.
- Coordinated with internal teams and handled documentation.
- Developed strong professional communication and process management skills.
